FRANKFORT, IN — (October 30, 2026) The City of Frankfort is set to deliver a major upgrade to its local infrastructure after securing $447,591.00 through the Indiana Department of Transportation (INDOT) Community Crossings Matching Grant (CCMG) program for the 2027 funding cycle. Combined with local matching funds, this award unlocks nearly $900,000 in total funding to transform the potential of 13 targeted roadway projects across the city including essential ADA sidewalk approach upgrades.

The Community Crossings Matching Grant provides essential state matching funds to help local communities accelerate critical road maintenance, paving, and infrastructure modernizations.

"We are incredibly proud to secure this funding and keep our momentum going," said Mayor Judy Sheets. "Upgrading 13 different potential project sites across Frankfort directly enhances public safety, improves daily travel for our families and businesses, and keeps our city moving forward. This state and local partnership allows us to accomplish far more for our taxpayers than would ever be possible through local funds alone."

Street Superintendent Brian Killman highlighted the practical impact on local neighborhoods and maintenance efforts. "Our team has worked hard to identify and prioritize 13 key roadway stretches that need attention," said Killman. "Getting these projects approved under the 2027 CCMG grant means smoother roads, better drainage, updated ADA sidewalk approaches for improved pedestrian safety, and safer driving conditions for everyone in Frankfort. We are fully prepared to take the next steps and get these improvements underway."

With the grant officially secured, the City of Frankfort is preparing to launch a competitive Request for Proposals (RFP) for qualified contractors to bid on the 13 roadway and sidewalk accessibility projects. Contractors and community members are encouraged to stay tuned for further updates regarding bid release dates, project schedules, and specific roadway locations as the implementation plan progresses.
